PROFESSIONAL SUMMARY

Self-driven and results-oriented Software Developer with a degree in Business Information Technology (JKUAT) focusing on building scalable and functional systems. Known for being adaptable, detail-oriented, and thriving in collaborative environments. With a solid background in Business IT and software development, I bring a strong work ethic, excellent problem-solving abilities, and a passion for delivering impactful solutions. Highly adaptive and motivated to continuously grow, contribute positively to teams, and help drive innovation in the tech industry.

TECHNICAL SKILLS

Frontend: React.js, Angular, JavaScript, HTML5, CSS3, Responsive Design
Backend: Python, Flask, RESTful APIs, SQLAlchemy, Authentication
Tools: Git, GitHub, VS Code, Postman, Linux, JSON Server, SQLite

TECHNICAL PROJECTS

Budget-Smart Application   **React — Flask — SQLite**
View on GitHub

- Developed full-stack finance app with user authentication and real-time budget tracking
- Implemented responsive React frontend with CRUD operations for expense management
- Built Flask RESTful APIs for user registration and financial data handling

Weather Application   **JavaScript — API Integration**
View on GitHub

- Created cross-platform weather app integrating OpenWeather API
- Implemented responsive design with 5-day forecast and city search
- Conducted API testing using Postman for data validation

PROFESSIONAL EXPERIENCE

Frontend Developer - R&D   **Jul 2025 - Oct 2025**
Eclectics International, Nairobi

- Developed enterprise Angular applications using modern architectural patterns
- Integrated Spring Boot APIs for real-time features including GPS tracking
- Prototyped innovative web features supporting R&D initiatives

IT Attachée   **Aug 2022 - Nov 2022**
NHIF, Elgeyo Marakwet County

- Supported development of internal healthcare software applications
- Collaborated on feature implementation and system optimization
- Assisted in troubleshooting technical issues and user support

EDUCATION

2025	**Full Stack Web Development**	Feb - Jul 2025
	Flatiron School - Moringa School Bootcamp	
2023	**B.Sc. Business Information Technology (Upper Division)**	2019 - 2023
	Jomo Kenyatta University of Agriculture and Technology	
2019	**KCSE (Grade B)**	2016 - 2019
	Kereri Girls High School	

CORE COMPETENCIES

- Self-Driven
- Highly Adaptive
- Team Collaboration
- Strong Work Ethic
- Fast Learner
- Problem-Solving
- Detail-Oriented
- Time Management
